

Customer Retro-Commissioning Program Application

Avista's Retro-Commissioning Program ("Program") is intended to implement low cost/no cost, quick fix, cost effective energy efficiency measures ("Measures") in qualifying customers' buildings ("Buildings") located in Avista's service territory. To qualify for the Program Applicant's Building must:

- Have Avista electric service, or Avista electric and natural gas service for its main heating source (natural gas only buildings do not qualify);
- Have 50,000 square feet or more of conditioned space;
- Have an Energy Management System ("EMS") controlling the building;
- Be older than 5 years;
- Have an Energy Use Index ("EUI") greater than 100% of normal according to Avista's EUI calculator;
- Have a minimum average occupancy rate of not less than 50% over previous two years;
- Have not received retro-commissioning services previously from Avista.
